Viabizzuno strada principale della frazione Bizzuno in provincia di ravenna dove tra la casa del popolo e la parrocchia, al n°17, sono nato il ventuno luglio millenovecentocinquantacinque. mn

Viabizzuno raccoglie attorno a sé esperienza, conoscenza e ricerca per poter meglio esprimere il proprio 'modo di fare luce'. il pensiero progettuale di Viabizzuno si identifica in una pagina bianca. due linee di prodotti complementari occupano questo spazio esplorandolo, dilatandolo: si incrociano forti della propria identità, due anime rappresentate dalle collezioni For m e Alvaline. inoltre sviluppa e realizza apparecchi di illuminazione speciali e su misura. è fondamentale che il progetto sia stimolante e che l' interlocutore sia preparato a una progettazione complessa, che richiede tempo e impegno. progettiamo la luce a 360°.

Viabizzuno is the name of the main road of the small village Bizzuno, located in the province of ravenna, where I was born on the 21st of july 1955 at n°17, between the "casa del popolo" and the local parish church. mn

Viabizzuno channels together experience, knowledge and research to express its "way of making light" as best as possible. Viabizzuno planning concepts are exalted when posed before a blank page; two complementary product lines occupy the space by exploring it and expanding it. they entwine together without vanishing thanks to their clear-cut identity. distinct yet complementary just like the two souls represented by the two Viabizzuno collections For m and Alvaline. it designs and produces special and custom-made lighting equipment too. it is essential that the project is stimulating and that the other party is prepared for a complex design process, requiring time and commitment. we design ligh at 360°.

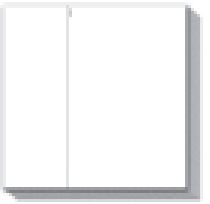

energia pulita
clean energy

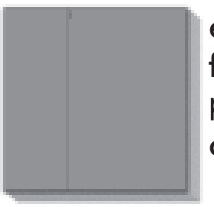

For m divide lo spazio verticalmente:
equilibrata, razionale, rigorosa.
il corpo illuminante evolve nella sua funzione di fare luce:
il suo uso é sempre più flessibile e la sua capacità di fondersi con l'architettura ne fa un vero materiale da costruzione, attraverso un design non invasivo, non mimetico, non sfacciatamente decorativo.
i corpi illuminanti si ritraggono nelle pareti, a filo intonaco, a scomparsa, nascosti alla vista lasciando piena soggettività alla luce. il grigio dei materiali come cemento, alluminio, acciaio é il colore della collezione For m.

For m divides space vertically. it is balanced, rational and rigorous. the lighting element is an evolution in the way that light is shed: its way of being used becomes evermore flexible and its capacity of blending with the surrounding architecture makes it a true building material, thanks to its non-intrusive yet non-mimetic design, which is not brazenly decorative. the recessed lighting elements retract into the wall, grazing against the plaster to hide away from sight and leave the whole scene to the light. the gray of materials like cement, aluminium, and steel is the colour of the For m collection.

Alvaline

Alvaline attraversa lo spazio diagonalmente: dinamica, irriverente, ironica, giocosa. inizia il gesto, dove si muovono gli sguardi, dove la materia si fonde mescolandosi alla luce, si originano così colore e forma, che vivono per se stesse e per l'emozione che li circonda. il blu della notte é il suo colore.

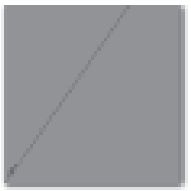

Alvaline cuts through space diagonally with dynamism, irreverence, irony and playfulness. its gesture is marked by the shifting of glances, by the blending of matter with light thus giving life to colour and form which live a life of their own with the emotions surrounding them. midnight blue is its colour.
