

apparecchio di illuminazione da incasso a parete o soffitto per interni IP54. realizzato in gesso per permettere di applicare alla superficie del corpo la stessa finitura della parete circostante utilizzando le medesime tecniche di stuccatura, rasatura o tinteggiatura di un'opera in muratura. si ottiene così l'effetto di un lembo di parete che, ritagliato, cede verso l'interno come a creare una nicchia nella quale è celata la sorgente luminosa.

disponibile in versione destra e in versione sinistra, con possibilità di installarla su pareti verticali o orizzontali.

dimensioni: 200x300x98mm.

cablato con sorgente elettronica 3000K o blu 1W 350mA.

alimentatore in corrente costante escluso, da installare remoto.

componenti: cassaforma per laterizio.

finiture: gesso grezzo.

IP54 rated wall or ceiling recessed light fitting for indoor use.

made of plaster so that the same finish of the surrounding wall can be applied to the fitting surface, using the same plastering, skim coating or painting techniques used for masonry, thus obtaining the effect of a detached patch of wall that recedes inwards to create a niche in which the light source is concealed.

available in right and left-hand version, it can be fitted either on vertical or horizontal walls.

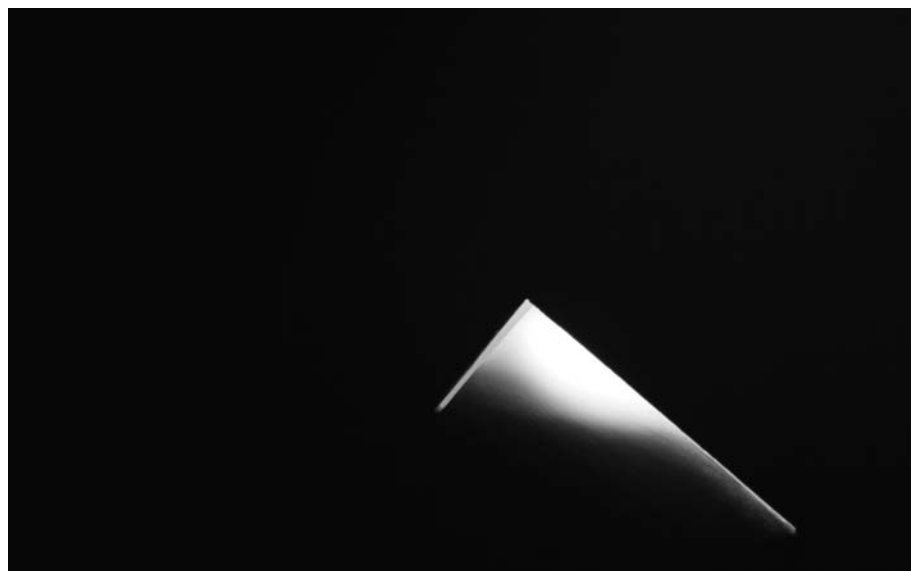

size: 200x300x98mm.

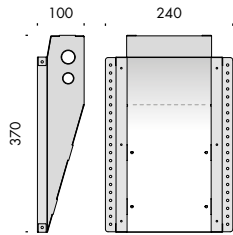

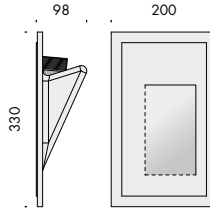

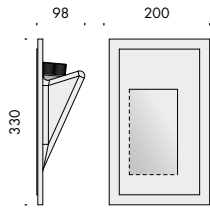

wired with 3000K or blue 1W 350mA led source.

constant current power supply not included, to be installed remotely.

components: brickwork housing.

finishes: raw plaster.
