Viabizzuno is the name of the main road of the small village Bizzuno, located in the province of ravenna, where I was born on the 21st of july 1955 at n°17, between the "casa del popolo" and the local parish church. mn

Viabizzuno channels together experience, knowledge and research to express its "way of making light" as best as possible. Viabizzuno planning concepts are exalted when posed before a blank page; two complementary product lines occupy the space by exploring it and expanding it. they entwine together without vanishing thanks to their clear-cut identity. distinct yet complementary just like the two souls represented by the two Viabizzuno collections For m and Alvaline. it designs and produces special and custom-made lighting equipment too. it is essential that the project is stimulating and that the other party is prepared for a complex design process, requiring time and commitment. we design ligh at 360°.

Alvaline

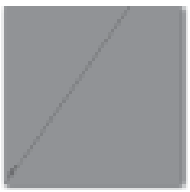

Alvaline attraversa lo spazio diagonalmente: dinamica, irriverente, ironica, giocosa. inizia il gesto, dove si muovono gli sguardi, dove la materia si fonde mescolandosi alla luce, si originano così colore e forma, che vivono per se stesse e per l'emozione che li circonda. il blu della notte é il suo colore.

Alvaline cuts through space diagonally with dynamism, irreverence, irony and playfulness. its gesture is marked by the shifting of glances, by the blending of matter with light thus giving life to colour and form which live a life of their own with the emotions surrounding them. midnight blue is its colour.
